

Family/Community Involvement

A coordinated effort between school, home, and community builds support for the success of the CSH and SHAC program goals and objectives. The active participation of parents and community members in various committees throughout the district provide school personnel with information to provide resources and services to respond more effectively to the health-related needs of the students.

Student Benefits:

- Increases the likelihood of better attendance and better grades
- Student success improves when teachers and parents work together
- Reduces in-school suspension rates, inappropriate school behavior and has a positive impact on academic achievement
- Increased student interest in co-curricular and after school community activities have a positive impact on grades and behavior
- Enhances linkages to community programs that support school objectives for student success
